

SOUND CONTROL

Quality Products. Custom Solutions. Proven Performance.

Acoustical product applications from Commercial Acoustics include industrial noise control, HVAC noise control, and others. You can count on our team for assistance with quality acoustical analysis, engineering expertise, and product selection and customization.

Attenuate noise can emanate from a variety of sources:

- HVAC systems
- Building openings
- Ventilation systems
- Plenum equipment
- Industrial equipment

Our sound control products include:

Standard specifications or customized to your needs

ACOUSTICAL LOUVERS

CIRCULAR AND RECTANGULAR SILENCERS
IN DISSIPATIVE AND REACTIVE DESIGNS

CUSTOM AXIAL FAN SILENCERS

EQUIPMENT SOUND ENCLOSURES AND
BARRIER SYSTEMS

MODULAR ACOUSTICAL AND
ABSORPTION PANELS

PLENUM HVAC ENCLOSURES

TRANSFER SILENCERS

SOUND CONTROL PRODUCTS

PRODUCT GROUPS

ACOUSTICAL LOUVERS

Commercial Acoustics louvers are easily installed, sturdy, and built-to-last. We offer a wide array of construction options including:

- Aluminum
- Stainless steel
- Natural fiber, mold-resistant acoustical fill
- Several types of linings, from acoustically transparent to impervious
- Optional finishes including anodized, Kynar®, and thermal setting powder coat

SOUND ATTENUATORS

Commercial Acoustics sound attenuators are manufactured in many varieties, module sizes, and materials, including no-fill models and models that eliminate acoustical fill entrainment into the air stream.

Our industrial silencers are engineered for HVAC noise control in commercial, industrial, and institutional applications, including hospital and clean room systems. Options include:

- Rectangular
- Circular
- Non-erosive
- Axial fan
- Industrial

TRANSFER SILENCERS

Commercial Acoustics transfer grille silencers are designed to provide the highest levels of privacy and security while allowing the necessary air flow. Grille transfer silencers can be used as fresh air intakes, exhaust air outlets, or for room-to-room air transfer. Options include:

- Dampers
- Grilles
- Custom sizes
- Custom materials, such as aluminum or stainless steel

GENERATOR ENCLOSURES

Commercial Acoustics' modular construction allows for the greatest flexibility in the design of drop-over, skid-mount, or field-erected custom acoustical generator enclosures.

Acoustical louver, sound attenuator, muffler, and acoustical door locations are easily customized to meet customer requirements.
